### **DETAILED ACTION**

The following is a response to the amendment received on July 21, 2006 which has been entered.

#### ***Response to Amendment***

Claims 1 and 3-45 are pending in the application. Claim 2 is cancelled.

-The 102(b) rejections have been withdrawn due to applicant amending claim 1 with limitations not disclosed by the prior art of record used in the rejection.

#### ***Allowable Subject Matter***

Claims 1 and 3-45 are allowed. Due to the allowance of generic claim 1, the remaining claims that were withdrawn due to the restriction requirement filed September 28, 2004 has been rejoined.

The following is an examiner's statement of reasons for allowance: The prior art of record does not disclose or render obvious a motivation to provide for:

-a power transmission device having at least two internally meshing planetary gear mechanisms disposed in parallel wherein the two having different power transmission characteristics from each other in which the characteristics can be one of rotational resistance, rigidity and backlash and in combination with all the remaining limitations of claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
